

GIS DIRECTOR

Johnson County, Indiana, (Franklin) located at the southern end of the Indianapolis Metropolitan Area is seeking candidates for GIS Director.

The candidates will be responsible for developing and maintaining the Johnson County GIS system. The candidate will provide technical expertise and assistance to meet the needs and requests of County departments, other governmental agencies and the general public related to the GIS system. The candidate will assist the local area GIS users with the development and implementation of goals, policies and work standards for the Johnson County GIS System.

The candidate must have good public relations skills as well as a minimum of four years experience and proven expertise in developing and managing a GIS system. The candidate must demonstrate a working knowledge of AutoCad, ArcView, Word and database creation and maintenance. The candidate should have a Bachelor's Degree in GIS or GIS related field; such as Cartography or Geography or related work experience. Knowledge of real estate legal documents, parcels, tax maps, survey records and county government structure and procedures will be helpful.
